More Time for Families with TUIO

TUIO has completely transformed the way Pam and I manage billing and payments at The Clover School. As Registrar, I spend a lot of time supporting families as their needs change and keeping their accounts up to date. TUIO has made it easier to manage tuition, program enrollments, payment plans and account adjustments.

One of the things I appreciate most about TUIO is the support from their team. They are approachable, responsive and always willing to help us work through questions or challenges. During setup, Amy duplicated our school-year programs so we could enroll students and set their payment plans. Having that practical help while we were learning a new system was something I really appreciated.

The impact on our day-to-day operations has been tremendous. Tracking payments and managing accounts is much more efficient, and we estimate that TUIO saves our office at least five hours each week. More importantly, that gives us more time to focus on building relationships and connecting with our families.

Between the efficiency of the platform and the outstanding support from the team, TUIO has been an incredibly positive addition to our school. I would wholeheartedly recommend it to any school looking to simplify billing, save administrative time and improve the experience for staff and families.
