To whom it may concern,

I have been using TUIO since my business opened one year ago and I am very happy with my decision - TUIO is doing everything that I want it to do! Working with TUIO helped to make the opening smooth and flawless. The only challenge I initially had was that I waited too long to get started. However, the TUIO team went above and beyond to get me set up and running within a few days!

My favorite feature on TUIO is the dashboard landing page. It is a great tool to view future payment projections and assess previous months to make sure all invoices have been paid. As the bookkeeper, I LOVE the ease of sending tax documents to my parents. It was so helpful to receive just one 1099 for my taxes.

The TUIO support is AMAZING. I have had to call for support in creating a new program and I cannot say enough about the ease and quality of their support!

All I can say is thank you, TUIO! Great program for an affordable price!
